

INNOVATIVE PIPING SOLUTIONS FOR DATA CENTRES

PERFORMANCE PIPING SOLUTIONS TO SERVE AND PROTECT YOUR DATA CENTRE

- ⌘ Energy efficient
- ⌘ Secure containment
- ⌘ BIM design
- ⌘ Off-site fabrication
- ⌘ Modularisation
- ⌘ Surveillance
- ⌘ Control

WORLD-CLASS SUPPORT

Utilised for

- ⌘ Process cooling
- ⌘ Waste heat recovery
- ⌘ Climate control
- ⌘ Fire protection
- ⌘ Drainage and condensate

About CPV

CPV Ltd is a leading UK manufacturer of specialist engineering pipe systems for industrial and building-related applications. We operate in a wide array of sectors, with products satisfying many applications, most of which concern engineering pipe solutions for aggressive, corrosive, hot, chilled and potable liquids.

Our state-of-the-art production facility - based at the site of our headquarters near Romsey in Hampshire - is backed by a comprehensive selection of research, design, engineering, testing, quality, training and support services; ensuring the perfect marriage between our products and the applications they serve.

Product Solutions

Since our inception in 1948, we have regularly led the way in the research and development of pipe systems, tanks and vessels. Our current range encompasses:

- Pre-insulated Pipe Systems
- Containment Pipe Systems
- Chemical and Hazardous Drainage Systems
- Pressure Pipe Systems
- Pre-fabricated Pipe Modules
- Tanks and Vessels

World-Class Support

Our team of engineers offers a full design service for all of our systems.

From 3D product design, BIM support and stress analysis, through to training, on-site testing and installation support - our clients can ensure the very best solution to their application.
